

HITCHINDENTALCARE

*The Hitchin Dental Practice*

# AN EXCLUSIVE INVITATION

**For all the Dentists and Hygienists at your practice**

**"Perioexit- Out With The Old Classification"**

A study club at Hitchin Dental Care

**Hosted by Dr ROBERT WARD**

**Specialist Periodontist**

GDC No. 67854

Rob qualified at the Royal London Hospital in 1992. After a spell in general practice in Essex and central London, he started his MSc in Periodontology at the Eastman Dental Institute in 1995. In 2001 he was accepted onto the Specialist list. In 2005 he set up a Multi -disciplinary Specialist Practice in Milton Keynes. He lectured locally on a range of Periodontal subjects to his referring colleagues and set up a local study group. Rob sold his practice in 2014 and has been a peripatetic Periodontal Specialist. Robert combines Practice with a teaching role at Guys Dental Hospital. He lectures in Periodontology as well as helping to run Consultant Clinics. He enjoys supervising students in the care of their patients. Rob is delighted to receive referrals from his colleagues and is happy to use his expertise to treat patients with all ranges of Periodontal disease.

**Venue:** Hitchin Dental Care, 5 Paynes Park, Hitchin, Herts SG5 1EH

**Date:** Thursday 3rd October 2019 **Time:** 6.30–8.30pm **CPD:** 2 hours

## HITCHINDENTALCARE

*The Hitchin Dental Practice*

### Aim

1. To discuss the features of the new classification system for periodontal disease.
2. To show how the new classification system can be intergrated into GENERAL PRACTICE
3. Discuss how pweriodontal disease affects Dental Implants

### Objectives

1. To demonstrate how the new classification differs from old classification. Particularly how our understanding of Periodontal disease has caused changes in classification systems over time.
2. Demonstrate how the BPE relates to the new classification.
3. Understand the new classificationas related to Peri implant Periudontal Disease
